JEPPESEN TO OPEN INTERNATIONAL TRIP PLANNING OPERATIONS CENTRE IN BANGALORE INDIA

*Business aviation customers will benefit
from local knowledge and expertise of the region*

AERO INDIA 2007, BANGALORE, INDIA, February 7, 2007 – Jeppesen has entered into a partnership with Commercial and Business Aviation Services Pvt. Ltd. (CBAS), a leading provider of aviation services in India, to establish a new International Trip Planning Services operation in the home of the Indian aerospace industry--Bangalore.

The new Jeppesen location will open in February 2007, giving business aviation operators throughout this fast growing and strategically-located region access to a local staff that has intimate knowledge of local cultures and civil aviation requirements, and builds on Jeppesen's 30 years of experience and expertise in international trip planning. The staff members are fluent in regional languages, and will work closely with Jeppesen's long-established London and Frankfurt operations. The Indian-based personnel will be trained to the same high standards that exist for all Jeppesen trip planning staff around the world, which includes expert knowledge of, and online access to, Jeppesen's leading weather, flight planning, and trip planning systems.

“We are combining the best of both companies with this exciting new partnership. With the long standing industry relationships CBAS continues to develop, and Jeppesen's proven track record as a leader in international trip planning, we will be in a position to better serve our mutual customers in the region,” said Air Commodore (Retired) A.M. Ganapathy, CBAS managing partner & director.

-more-

According to Nick Cavell, Jeppesen senior manager, International Trip Planning Services, “We look forward to working with CBAS to extend our global presence into this key region. It is very important for us to provide the highest levels of service possible, and being located close to our customers is a key component of this. The Indian operation will have the full backing and experience of Jeppesen--no other provider can match this.”

The Indian operation will be managed by Jeppesen’s UK-based International Trip Planning Services team, which is accredited by the world’s largest developer of quality standards—the International Organisation for Standardisation (ISO). The ISO 9001:2000 accreditation is tangible proof of the worldwide policies and procedures in place that help to ensure total customer satisfaction.

With locations in San Jose, California; London Gatwick, England; Bangalore, India; and soon Dubai, United Arab Emirates, as well as customised onsite staffing solutions for significant fractional and charter operations in the U.S. and Europe, Jeppesen’s International Trip Planning Services support the various needs and requirements of operators throughout the world. With over 50 years of combined experience, this global team is uniquely equipped to consistently deliver industry-leading service in the demanding international flying environment.

For more than 70 years Jeppesen has made it possible for pilots and their passengers to safely and efficiently reach their destinations. Today this pioneering spirit continues as Jeppesen delivers essential information and optimization tools to improve the efficiency of air, sea and rail operations around the globe. Jeppesen is a subsidiary of Boeing Commercial Aviation Services, a unit of Boeing Commercial Airplanes.
